

# We make *those* spaces.

The ones that get gawked at.

Drooled over.

And talked about.

## **Our medium?**

Wrought iron. Sometimes with attitude. *Always* with personality.

## **Our masterpieces?**

Outdoor mirror displays. Trellis wall features. Grandiose gates. Or maybe that one missing thing *you can't quite put your finger on.*

## **Our method?**

Depends! Whether you're an individual looking to crank the comfort on your outdoor space, or a trade hunting for *the one*, I won't just promise you a piece that'll bring the peeping toms--I'll promise you a piece of me, too. Of my heart, of my experience, and every bit of energy I've got.

Customized...just for you.

# Maybe you have...

...a lonely corner in your garden.

...an empty patio wall.

...an area in the courtyard that needs to be brought to life

...a spotlight piece that could use a little more, well...*spotlight* (hello, beauty of mirrors!)

...a place you want to divide into two secret sanctuaries instead of one

...an unwelcoming entryway

...or just a place outside that you'd like to make extra special

Then maybe you should give us a  
call. A ring. A buzz. A shout.  
Preferably from a rooftop, but the  
phone will work, too.

Experts in wrought iron.

Mavens in design.

And pros at putting the two together.
